RE: Mode Park

On behalf of the Borough of Modena Parks and Rec Dept, Historical Committee and Borough Council, we would like to advise that work will begin on the grounds of the future Mode Park located at 118 N. Brandywine Avenue.

On Thursday August 12, 2021, the process of tree and brush removal will begin (weather permitting) on the lot immediately adjacent to N. Brandywine Ave. This will include the removal of most of the trees, including any tree that extends over current property/fence lines. Work should take just a few days, but may extend to the following week depending on the weather and any unforeseen issues.

Also, in the upcoming months, we will be bringing in a herd of goats to naturally remove the overgrowth and invasive species of plants from part of the land. They will be contained with an electric fence and monitored by the owner of the company providing the service, Amazing Grazing, LLC. We will notify you once the time is closer for this part of the project.

Please remember, there is NO PARKING on the property. Also, please note the property lines. Any items that have been kept over the property lines need to be moved/removed immediately. Anything located on Borough property will be removed and disposed of.

If you have any questions, please contact the office. We thank you for your patience as we continue the efforts to continue the growth of our community.

Thank you,

Borough of Modena
